Inoculating for The Cattle Plague,

A Russian paper, the Kievlianin, reports that in the latter part of 1879, in the province of Poloeva, the cattle plague carried away from 75 to 80 per cent of all animals affected by it. A Russian who saw no escape for his cattle resorted to the dangerous experiment of inoculating his healthy beasts with the virus taken from the deceased ones. All the cattle experideceased ones. All the cattle experimented upon were taken ill upon the tenth day after the operation, and about 18 per cent. of them perished, leaving 82 per cent. safe from the epidemic. The inoculated animals epidemic. The inoculated animals lived with impunity even through the repeated epidemics that afterward ravaged the same region. The result of this experiment has proved so satisfactory that inoculation for the isfactory that inoculation for the plague is to be tried on an extensive scale in a number of Rassian provinces

THE SALABY BILL.

Some modification of the county officers' salary bill should be made at the next session of the legislature. The one which is now on the books, and which will take effect with the next term, seems to be weak in some respects. The sheriff of this county, under its provisions, will get only \$3,000 with no allowance for expenses. No one could do the work for any such sum, and have any salary left. It is said that the intent was to pay this salary and expenses beside, but as the bill does not say so, the take the responsibility, if it is done, which they will be very both to do. There is not likely to be any opposition to an amendment allowing the expenses of that office. CONKLING'S DESPERATE CHANCES

It is neck or nothing with Conkling, If any of the candidates spoken ated instead of Grant he cannot be President of New York, as he virtually was under Grant. He and Blaine have been sworn foes for years. Sherman cut his comb on the New York custom house appoint-Washbourne called him a line the floor of the House years ago, and they haven't spoken since. The Republicana of these United States are saked to break the third-term rule and elect the man who nearly ruined the party, in order that Conkling may govern New York, Cameron Pennsylania, and Gorham have a place in the Cabinet, gue de l'Albie

We present to-day a very able and complete article on the Lassen Pass road. A rude map gotten up for the occasion is sufficiently correct to aid the reader to a correct understanding of the "lay of the land." We hope to see the road entirely successful, and see the road entirely successful, and also to see a good road built over the Madeline plains. There is no reason why both should not be built and operated to the great benefit of Ren as well as the country through which they run and to which they lead.

About 12 o'clock last night an un known man entered the house of H. Wright on Sierra street, and went through the premises with a view to robbery. He made his exit and his through the cellarway. The outer doors of the house were locked. The hurgiar went into the room where Mr. Wright was sleeping and took from the pockets of a pair of trousers the sum of twenty its, all the coin that was in them. He next made his way to the spart-ment of Mrs. Younglove, Mr. Wright's daughter, and was searching her room, when she awoke and raised up in bed with a start. The thief was carrying a lamp of some sort, and she saw that a strange man was in her room. gave a cry of alarm and the burglar aped from the house. Mrs. Young-love cannot describe the man. The surprise and fright prevented her making any note of his personal appearance. The two dimes taken from pearance. The two dimes taken from Mr. Wright's pocket constituted the total receipts of the burglar. Considering the risk of capture or shooting, he was badly paid for his trouble.

Great Circle Traveling.

There are six feet of snow between Sugar Pine Flat and Corey station, on the road from Truckee to Susanville. The stage left Truckee yesterday for Susanville, but finding it impossible to get through, returned to Truckee and came down to Reno. It left Reno this morning and will go through by this route without any difficulty. From Reno it will follow the Susanville route to the Junction, thence over the aummit three miles and through Sierra Valley to Loyalton and Sierraville. The direct route from Truckee to Sierraville is only 26 miles, from Reno it is 56 miles to Sierraville. From Reno via Sardine valley the distance is 35 miles, but there is snow on that route. The Truckee and Susanville stage goes a long way around this

The Only Road That Can Be Kept Open All the Year.

Cedarville Routes—The Direct Route Over the Lassen Pass—Little Snow and Only a Narrow Ridge to Crois-The Road Not Likely to Take Any Trade Away From Rino-Where the Interests of Our Merchants Lie, Etc.

SURPRISE VALLEY, CAL., May 10th, 1880.

Editor Gazette :- As so much misapprehension seems still to exist in Reno regarding the comparative merits of and finding Mr. Snider, the energetic the rival routes to the north, perhaps you will tolerate the following inflic-tion for the sake of the information it is intended to afford. The importance are naturally with Redding, and for you will tolerate the following inflicis intended to afford. The importance of securing the northern trade to Reno is beginning to be realized, and I can understand that the conflicting statements by interested parties tend only to mystify you and others concerned in the selection of the best route Could you and some other of Reno's representative men traverse the different routes now, you need not then rely on others for information. But I shall give you some statements which will bear the closest scrutiny. I also enclose a rough diagram to assist you in comprehending localities, ch:

VALUE OF THE NORTHERN TRADE.

The value of the trade from the north now going to Redding is evidenced by the ample preparations that are made for the accommodation of travel along the road it follows. That much of this can be diverted to Reno by a good road, open all the way through, and all the year round, is very probable. By way of Susanville very probable. By way of Susanville there has for many years been a road open all the way through, and which cannot be kept open all the year round. The proposed cut-off simply shortens the distance, but does not tessen the winter difficulties. By way of Surprise Valley there is a route not come all the way through but which open all the way through, but which, when so opened, will be practicable at all seasons of the year. About six miles of new road built on the Lassen Pass, and the only obstruction is over come. In evidence that the Susan ville route is impracticable in winter see the reports of its friends. The Modoc Independent, in one issue, said that on the mail route between Al-turas and Susanville, they first abandoned coaches, then horses, and that, when snow-shoes failed, the jig was up. Apparently they did fail, as the Susanville papers announced that Mr. White had thrown up the contract. Be that as it may, it is notorious that Alturas is to-day without supplies, for the reason that both the

SUSANVILLE AND REDDING ROUTES re impracticable for freight Further still, it looks as though these and has good road but considerable snow roads were impracticable for stages, when travelers, even women, nearly all ride twenty-five miles across the snow. Cedarville Pass to reach the Surprise Valley road. This cannot be to save distance, as Alturas is nearer to Redding than it is to Reno, and the route by Cedarville to Rono is thirty miles

THE SURPRISE VALLEY ROAD the stage makes its regular trips on summer time-300 miles in 36 hoursand has been doing so since the 1st of April. Preight teams have made their trips on the Surprise Valley road every month of the past winter, and it is improbable that a loaded team will be able to travel either of the other routes, sooner than the last days of June. By inquiry of Mr. Ash you can verify my statements regarding freight to Surprise Valley, and by inquiry of Hymers & Comstock you can learn the truth of those regarding passengers. The latter gentlemen will tell you that they have sent passengers through a summer time, who had gone to Redding where the stage company declined to book them from that place to Alturas. It is now nau gone to Redding where the stage company declined to book them from that place to Alturas. It is now an every day occurrence to see pack trains leaving Surprise Valley with supplies for Alturas, Willow Ranch and Lake View, at the north end of Goose Lake Valley. This suggests to you the enquiry what are the difficulties to be overcome between Surprise Valley and the valleys to the west and frorth of it?

there is a good deal of snow, but it is never impassable for more than a day or two at a time. If a good wagon road were made, it could and would

tary horseman. As the distance across the mountain is so short (not more than two miles on the mountain itself, than two miles on the mountain itself, which is over a sharp ridge) the snow would be but little trouble, compared with routes where they have so much snow for from 20 to 50 miles. Mr. Ash will tell you that, even without any good road across this Pass, merchants in Goose Lake and Chewattan snip freight over it nearly every win-ter, when the other routes are closed to delinquent debtors. to them. What I have now told you will perhaps show to your satisfaction that this is

to the greater portion of Modoc and Lake counties. The P. O. department has shown its appreciation of this fact recently, by maintaining the Reno and Willow Ranch route at six trips a week, while it has reduced all others leading into the country to three. Another objection to the Honey Lake route is that when teams have reached Alturas, at which point the Honey Lake road leaves that to Redding. they are nearer to Redding than to Reno. The Surprise valley road will tap the Redding route at Willow Ranch, and teamsters and travelers arriving from the north at Willow Ranch, merchant and proprietor of that place, doing his business with Reno instead this reason, as well as because it would still continue to enjoy the benefits of the northern travel, it favors the Honey Lake route in preference to that by Surprise Valley.

The northernmost of the three lines tween Surprise Valley and Goose Lake shows Ayers' new road, nine miles long. The middle one, the Lassen Pass road, eight miles, and the southern one to Lake City Pass, ten miles The Lake City pass has a fair road and much snow. The Lassen Pass no road and very little snow. Ayers' read is good but much

RENO'S BUSINESS INTERESTS.

I understand that the business men of Reno fear that, in case of opening the road over Lassen Pass, Reno may lose a portion of the trade of Surprise Valfurther than by way of Susanville to the same place. In fact, both these routes are still submerged for miles and tens of miles, in from one to three feet of snow, mud and water. Big Valley, on the Redding route, and Madeline plains, on the Susanville route, are both entitled to be called "mud lakes" at present. On tice that a good summer road exists between Cedarville and Alturas, and this road is a much more direct one from Surprise to Redding than the one via Lassen Pass will be. The Cedarville road is open fall and spring, while the Redding road is yet closed. Wagons are now crossing the Cedarville Pass. Thus the Cedarville road is not a process to Redding at all controls. wille Pass. Thus the Cedarville roat affords a pass to Redding at all seasons when that route itself is open, yet no one here ever thinks of getting freight by way of Redding, it can be brought in so much more cheaply by way of Reno. Freight by stage from Redding to Alturas costs from eight to thirteen cents per pound; by stage from Reno and Bidwell from four to aix cents per pound. Parties in A turas, Willow Ranch and Lakeview are very desirous of having the Surprise Valley stage line extended to these points, and it is to the interest of Reno that it should be done. The trustees appointed to expend the money subscribed for the new road have selected and marked out the site, and by subscriber for the site, and have advertised for bids for its construction. It is important that the

Disappearance of S, D. Fannon.

The friends of S. D. Farmon are much alarmed at his disappearance. He had made arrangements to remove with his fantily to Candelaris and go into business there. Yesterday morning he returned home from San Francisco, where he had been purchasing goods. On his return he found him-self involved in a domestic trouble which had been brewing during his absence. Yesterday afternoon he borrowed a gun of Matt. Parrott, saying that he wanted it until Saturday. He was last seen about 8 o'clock last evening, on the street. He had kept away from his home all day. At half-past 8 o'clock last evening

a letter from Mr. Fannon to his wife was received at the Farmers' store with the mail from the postoffice. Mr. Cahlan at once sent it to her house.

The letter gave evidence that Mr.

Fannon had written it in a state of great mental excitement and distress. It closed with a statement to the efe read the There was writer would be at rest. nothing in the letter to warrant such a supposition, but Mrs. Fannen at once jumped to the conclusion that it had been written at Washes City. She went immediately to Hymers & Com-stock's stable, and persuaded Mr. Hy-mers to drive her to Carson, with the view of finding her husband. They arived there in the course of the night, and found no trace of the missing man. Mrs. Fannon returned on the train this morning, and Mr. Hymers telegraphed to Mr. Cahlan his belief that Mr. Fannon had killed himself. That is also the opinion of those acquainted with the circumstances.

It is undesirable to ventilate the story of the domestic trouble to white reference has been made above. It is however, only simple justice to say that both Mr. Fannon and his wife have stated that the trouble was between them alone, and that there is not a particle of truth in the story which had been circulated, implicating a young lady who has been from the first entirely innocent of the whole af-

CAMPAIGN OF 1880

Democrats of Nevada, SUBSCRIBE FOR THE VIRGINIA EVENING CHRONICLE

\$5 For the Campaign, \$5 Nors This Fact.—To subscribers in Reno, Wadaworth, Winnemucca, Elko, Pioche, Austin, Aurora, Candelara, and all other towns in Nevada, the Virginia Chronicle brings all the Eastern Telegraphic News, Comstock Mining News. Virginia City stems and State News, 12 to 24 hours ahead of any other news-

paper.

The Chronicle is a thorough newspaper. It is a daily epitome of the world's history. While Democratic in its principles, it is the organ of no political organization. Nor is it the servant of any corporation. It advocates Democratic principles because it believes that the fundamental doctrines of that party form the life and essence of the American system of government, while those of the Republican party aim to the everthrow of popular government.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of abamen will appear, es the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
